SKÖTSEL & RENGÖRING

Så här tar du hand om din möbel på bästa sätt. Var noga med att följa skötselanvisningarna för att möbelen skall bevaras på bästa tänkbara sätt.

Möbler

Våra möbler är lätta att rengöra. Det enda du behöver är en lätt fuktad trasa och eventuellt ett mildt rengöringsmedel som tvål eller såpa. Eftertorka med en torr trasa. Användning av slipmedel, skurpulver, syror och ammoniak kommer att skada möbelen. Även om träet i möblerna är behandlade för att tåla fukt bör man alltid omgående torka bort vatten och stänk med en torr trasa.

Porslinstvättställ

Porslinstvättställ har en glaserad yta som är lätt att hålla ren med ett vanligt, mildt rengöringsmedel. Använd ej starka syror och alkalier som skurmedel och andra medel med slipande effekt.

Granittvättställ

Granit är ett naturmaterial som är tåligt och lättskött. Då det är ett naturmaterial är det bra att känna till att det kan förekomma variationer i stenens färg och struktur så som porer och stick vilket inte är något fel utan tillhör stensortens natur. Bänkskivor i granit tål rengöring med alla rengöringsmedel. För att få bästa skydd på din granitskiva bör du innan produkten tas i bruk rengöra ytan med grönsåpa och därefter olja in den med paraffinolja. Skivans nyans kommer efter behandlingen att upplevas som mörkare och mustigare. Behandlingen kan upprepas årligen för att produkten skall hålla sin lyster över tid.

BRA ATT VETA

Här finner ni information om installation av er nya möbel samt vilken garanti vi lämnar.

Installation

För att planera ditt badrum är det bra att veta lite om grundragen i de regler och rekommendationer som finns för våtutrymmen. När det gäller installationer av el måste du alltid anlita behörig elektriker. Även när det gäller installation av vatten och avlopp samt att göra väggar och golv vattensäkra rekommenderar vi er att anlita professionell hjälp. Samtliga Björbo Badrums tvättställ med undantag av granithandfaten har bräddavlopp så kraven på golvbrunn och öppen bottenventil är ej aktuella. På sidan Kortlingsmått/monteringsmått ser ni de mått som är aktuella för montering och installation av möbelserien Mejda från Björbo Badrum.

Kontrollera alltid din installation med behörig el eller VVS-installatör.

För ytterligare information, kontakta våra återförsäljare eller läs mer på www.bjorbobadrum.se

Garanti

Björbo Badrum lämnar 5 års funktionsgaranti på samtliga möbler. Defekta delar ersätts med samma eller likvärdiga ur befintligt sortiment, eventuella monteringskostnader ersätts ej. Garantin gäller under förutsättning att monterings- och skötselanvisningarna följts. I övrigt tillämpas Konsumentverkets rekommendationer.
